Our story

Bound by our shared passions and deep love for Haritachala, where our friendship began, we started this project to keep our connection to Haritachala, our home, vibrant and alive. Inspired by the meaningful and purposeful nature of Haritachala, we aspire to give back to the Saipatham family by blending our skills and heartfully crafting each product to nourish both body and soul.

Why monkeys?

Our team resonates with monkeys because of their playful nature and adventurous spirit. During our time in Tiruvannamalai, we had many fun (and a few scary) encounters with these delightful creatures. These moments created cherished memories that we look back on fondly. We wanted to incorporate monkeys into our packaging as a nod to the place where our first banana bread recipe was tested.

Sai Kid Testimonial

"It's the best banana bread I've ever had in my entire life! I'd fly to Haritachala just to eat this bread!"
